WEIRD WONDERS.

EXPERIENCES OF POWERS, THE SCULPTOR, WITH GHOSTLY VISITORS HIS RELATION OF SOME STRANGE MANIFESTATIONS—HE BELIEVES IN SPOOKS.

Dr. Bellows contributes to *Appleton's Journal* a paper entitled "Sittings with Powers, the Sculptor." In the course of a conversation Mr. Powers relates the following spiritualistic experiences:

These spiritualistic phenomena have always interested me, although I have never been in the least carried away by them. I recollect we had many "seances" at my house and others, when Home was here. I certainly saw, under circumstances where fraud or collusion, or pre-arrangement of machinery was impossible, in my own house and among friends incapable of lending themselves to imposture, many very curious things. That

HAND FLOATING IN THE AIR,

of which all the world has heard, I have seen. There was nothing but moonlight in the room, it is true, and there is every presumption against such phenomena under such circumstances. But what you see you see, and must believe, however difficult to account for it. I recollect that Mr. Home sat on my right hand, and, beside him, there were six others round one half of a circular table, the empty half toward the window and the moonlight.

IT USES A FAN.

All our fourteen hands were on the table, when a hand delicate and shadowy, yet defined, appeared, dancing slowly just the other side of the table, and gradually creeping up higher, until, above what would have been the elbow, it terminated in a mist. This hand slowly came nearer to Mrs. ——, at the side of the table, and seemed to pat her face. "Could it take a fan?" cried her husband. Three raps responded "Yes," and the lady put a fan near it, which it seemed trying to take, "Give it the handle," said the husband. The wife obeyed, and it commenced slowly fanning her with much grace. "Could it fan the rest of the company?" some one exclaimed, when three raps signified assent, and the hand passed around, fanned each of the company, and then slowly was lost to view.

A CHILD-GHOST'S HAND.

I felt, on another occasion, a little hand—it was pronounced that of a lost child—patting my cheek and arm. I took hold of it. It was warm, and evidently a child's hand. I did not loosen my hold, but it seemed to melt out of my clutch. Many other similar experiences I have had. It is interesting to know that the effects is not to create supernatural terrors or morbid feelings. My children, who knew all about it, and were present, never showed any signs of trepidation, such as ghost stories excite in sensitive and young brains.

THEORY ABOUT A SPIRITUAL BODY.

I have always thought that there was something yet inexplicable about the nervous organization which might eventually show us to be living much nearer to spiritual forms than most believe, and that a not impossible opening of our inner senses might even here enable us to perceive these forms. When we see a man in his flesh and blood we see his outward robes. If his nervous system alone were delicately separated out from his body it would have the precise form of his body, for the nerves fill not only each tissue of the body, but extend even to the enamel of the teeth and the fibres of the hair. There is no part of the human frame that is not full of these invisible ramifications. Show us a man's nervous system, and, filmy as it might be in parts, his form would be perfectly retained, even to his eyes. Now, this is one great step towards his spiritual body. A little further refinement might bring us to what is beneath the nervous system—the spiritual body, and it might still have the precise form of the man. I believe it possible for this body to appear and, under certain states, to be seen. I do not often mention a waking vision I enjoyed more than twenty years ago, but I will tell it to you. It happened five-and-twenty years ago.

A REMARKABLE WAKING VISION.

I had retired at the usual hour, and as I blew out the candle and got into bed I looked upon our infant child, sleeping calmly on the other side of its mother, who also was sound asleep. As I lay broad awake, thinking on many things, I became suddenly conscious of a strong light in the room, and thought I must have forgotten to blow out the candle. I looked at the stand, but the candle was out. Still the light increased, and I began to fear something was on fire in the room, and I looked over toward my wife's side to see if it were so. There was no sign of fire; but as I cast my eye upward and, as it were, to the back of the bed, I saw a green hill-side, on which two bright figures, a young man and a young woman, their arms across each other's shoulders, were standing and looking down, with countenances full of love and grace, upon our sleeping infant.

A LOOK INTO THE SPIRIT LAND.

A glorious brightness seemed to clothe them and to shine in upon the room. Thinking it possible that I was dreaming, and merely fancying myself awake (for the vision vanished in about the time I have been telling you the story, and left me wondering.) I felt my pulse to see whether I had any fever. My pulse was as calm as a clock. I never was broader awake in my life, and I said to myself, 'Thank God, what I have been longing for years to enjoy has at length been granted me—a direct look into the spiritual world!" I was so moved by the reflections excited by this experience that I could not restrain myself from awakening my wife and telling her what had happened. She instantly folded her child to her bosom, weeping, and said: "And is our darling, then, so soon to be taken from us?" I pacified her by telling her that there was no evil omen in the vision I had seen; that the countenances of the heavenly visitants expressed only peace and joy, and that there was nothing to dread of harm to our child, and so we found it. I have longed much since to have any similar experience, but I never had it.

POWERS A SPIRITUALIST.

Mr. Powers, being asked whether he really believed in the pretensions of modern spiritualists, said: I am not a believer in the *revelations* of spirits, as made known through mediums or otherwise, for most corrupt and unworthy communications are often made; and, with many mediums, there is a great deal of trickery, while there are some so-called mediums who are nothing else than *charlatans*. But I do believe in the *fact* of spiritual manifestations, animal magnetism, and the moving of solid bodies, by means as yet unexplained by physical scientific men. I believe we are now at the threshold of a new era of discoveries very unlike the past.

CINDERS IN THE EYE.

The following is from a communication in *Hearth and Home*, by an eminent physician:

"Called to prescribe for Mrs. Andrews' inflamed eye; learned that she had a bit of cinder in her eye; occurred while traveling on the cars four days ago; eye very much inflamed, painful, and attended with severe headache. This is one of hundreds of cases where a little knowledge would not have been dangerous thing, and would save a world of pain. Nothing is more distressing to a traveller than a piece of cinder in the eye, and no disorder is more easily remedied. Calling the family together, I proceeded to show them that it was not an eye-wash that Mrs. Andrews needed to relieve her suffering, but the removal of the foreign substance. The cinder will be found just underneath the margin of the lid, where there is a small groove or gutter for the flow of tears to the inner angle of the eye. Foreign bodies tend to fall into this groove, and if they are angular, like cinders, they adhere in spite of the current of tears which now flow in great abundance, and, sooner or later, carry off smooth substances. Now, if you raise the margin of the upper lid, and turn it over, the cinder or grain of sand will be exposed, and may easily be removed with the point of a pencil, or with the finger covered with a handkerchief. I then demonstrated this simple operation on one of the boys thus: taking my pencil in my right fingers, with the thumb and first finger of my left hand I seized the eyelashes of the upper lid, and drawing the lid gently out from the ball, pressed the point of the pencil downward upon the upper surface of the lid, about one fourth of a inch from the margin, and at the same time carried the margin upward over the pencil by the eyelashes, when the lid rolled over the pencil so as to expose completely the gutter described. I then asked one of the young ladies to perform this operation upon her mother, which, after two or three failures, she accomplished; and, as I predicted, small angular pieces of cinder were found beneath the margin of the lid, which she adroitly removed with the point of the pencil. Mrs. Andrews expressed immediate relief. So much interest was felt in this painless operation, that all in turn performed it, being much aided by requiring the person operated upon to look downward when the lid was being everted, and upward when the operator wished to restore the lid.

DOTY'S WASHING MACHINE,
LATELY MUCH IMPROVED,
AND THE NEW
UNIVERSAL CLOTHES WRINGER.
Improved with ROWELL'S PATENT DOUBLE COGWHEELS, and the PATENT STOP, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.
Those who have used them give testimony as follows:
"We like our machine much; could not be persuaded to do without it, and with the aid of Doty, we feel that we are masters of the position."—*Rev. L. Scott, Bishop M. E. Church.*
"It is worth one dollar a week in any family."—*N. Y. Tribune.*
"In the laundry of my house there is a perpetual thanksgiving on Mondays for the invention."—*Rev. Theodore L. Cuyler.*
"I heartily commend it to economists of time, money, and contentment."—*Rev. Dr. Bellows.*
"Every week has given it a stronger hold upon the affections of the inmates of the laundry."—*N. Y. Observer.*
"Friend Doty—Your last improvement of your Washing Machine is a complete success. I assure you 'our machine,' after a year's use, is thought more of to-day than ever, and would not be parted with under any circumstances."—*Solon Robinson.*
"Your Washing Machine has been in daily use in our laundry and the housekeeper expresses herself as highly pleased with it. It certainly accomplishes a greater amount of work, with less labor, and does not wear the clothes near so much as the old fashioned wash-board. By using it one laundress is dispensed with."—Wm. *M. F. Round, Superintendent of Infant Department of St. Catherine's Nursery, N. Y. City.*

PRICES.—A Fair Offer.
Send the retail price Washer $14, Extra Wringer $9 and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machines, free of freight, after a month's trial, according to directions.
No husband, father or brother should permit the drudgery of washing with the hands, fifty-two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Doty Clothes Washer, and a Universal Wringer.
Canvassers with exclusive right of sale make money fast selling them.
Sold by dealers generally, to whom liberal discounts are made.

THE SENTINEL.

JOSIAH TURNER, Jr., EDITOR.

TUESDAY, SEPTEMBER 7, 1869.

DEATH OF EX GOV. WORTH.

It becomes our painful duty, to-day, to chronicle the death of that truly great and good man, JONATHAN WORTH, ex Governor of North Carolina, who quietly breathed his last, at his residence in this city, on Sunday night at 11 o'clock, after a lingering and painful illness; aged nearly 67 years.

It is not our purpose to attempt a lengthened eulogy on the life and character of this greatly esteemed citizen, and, for a number of years, highly honored public servant of our State, but leave this melancholy duty to the pen of some one better qualified for the task. In all the relations of husband, father, neighbor and citizen, he had the love, esteem and confidence of all with whom he was connected. As a public officer, his honesty, probity, moderation and firmness, were known and read of all men. Holding the most responsible positions in the Financial and Executive Departments of our State government, at a time the most critical in our history, when obstacles and difficulties not met with in ordinary times were to be daily encountered and overcome, he discharged his duties with unwonted fidelity and almost universal satisfaction, and came out with garments unstained, and a name on which the breath of slander dared not breathe.

His funeral will take place, as announced elsewhere, to-day at 11 o'clock, from the Presbyterian Church. The Public Offices, we understand, will be closed, and no doubt our citizens generally will join in paying respectful tribute to the memory of the deceased.

LET US HAVE PEACE.

The *Standard* of Monday has an article deprecatory of the political agitation of the country and consequent distraction of industrial pursuits, and counsels a cessation of contention and a healing of the strifes and heart burnings engendered by the war.

The causes of the continued bitterness and estrangement of feeling, will doubtless be differently estimated according to the different standpoints from which they are viewed. We contend that the political differences of the country that culminated in the civil war, has had but little to do in engendering those feelings of animosity and hatred that have infused their deadly poison into every ramification of society, into the civil government of the States and even into our business relations. When the South took up arms in defence of what she honestly believed to be a just cause, the cause of her constitutional rights which she believed to be invaded by a party, she was actuated more by principle than passion, more by a purpose to preserve the principles of the Constitution, which she believed to be invaded, than by hatred to those who opposed her; more to maintain her own rights than to interfere with the rights of others. She fought bravely in the cause she had undertaken, because she was fighting for principles which not only she believed to be right, but which thousands of those who afterwards opposed her, said were right.

As she went into the contest on these grounds, and placed the decision of the questions at issue on the result, so, when she failed—when all hope of success had disappeared, she surrendered in good faith, relying upon the oft repeated declaration of her opponents, that they waged the war only in defense of the integrity of the Union and for the restoration of the revolted States to their places in it. In laying down their arms and ceasing their opposition to the superior force brought against them, however, our soldiers did not surrender their claims to manhood, to truth, to justice and common respect; and they had a right to expect, both from their unreserved acquiescence in the result of the contest, and the promises and declarations of those to whom they surrendered, that they should meet with some magnanimity.

But bad men got into place and power—men who had their own private ends to accomplish—their own imagined wrongs to redress, and hence has arisen the causes for the present state of affairs,—the bitternesses, the estrangements, heart-burnings, that unfortunately exist in society and send a blighting influence over every interest and enterprise in the South. In bringing about this state of things in North Carolina, the *Standard* and its party, especially its head and leader, Gov. Holden, have been the chief instruments; and now to cry out peace! peace! while the same course is pursued; the same instrumentalities employed; the same proscription and oppression and extravagance practiced, is, to say the least of it, a piece of very cool audacity. It reminds us of the little boy who cried out to his mother, "Ma, make Freddy behave himself; every time I peck him on the head with the croquet mallet he cries and makes a fuss."

The *Standard* does not appear to be able to distinguish the difference, or even to appreciate that there be a difference, between the causes which led the people of the South to take up arms in the late civil war and those which impel them to restlessness and disquiet, even to "bitterness" and "estrangement" under the burdens, oppressions, suspicions and misrepresentations that have been heaped upon them since the war. If the people cry out or complain against the evils forced upon them, immediately the cry goes up, "rebel," "traitor," and similar unjust and insulting epithets. The people must not complain of any wrong inflicted upon them; must not murmur at any burden imposed; must hold their peace and shut their eyes to the dishonesty and corruption practised almost unblushingly and in open daylight by those in official positions, 'and be gravely told that "it is necessary to have a sprinkling of rascals in every community, civilized or barbaric," and then, if any one has the temerity to attempt to hold their actions up before the people, why, he is creating discord, he is sowing bitterness, he is producing estrangements among the people!

If the Legislature squanders a hundred thousand dollars in a Penitentiary swindle; or appropriates millions of money, to be dragged in taxation from a ruined and impoverished people; or creates new and high-salaried offices to be supported by taxing the people; or, if the Governor sends his militia to counties to lie still and do nothing but drain the resources of the county; or makes appointments of imbecile and incompetent officers over the State, who are a curse rather than a benefit to the people; or if he pardons out convicted murderers or ravishers from the clutches of the law and turns them loose again on society; or if he approves of the sale of State securities at a sacrifice, to be made good by taxing the people; or, if a drunken Judge hears a cause on *habeas corpus* without having a single witness in the case before him, and turns at large men accused of the highest crimes; if all these and a thousand similar things be done, no man must lift up his voice against them lest he lay himself open to the accusation by the *Standard*, of sowing discord—of injuring the country.

We believe if the causes were removed the evil would cease. The people of this country have not yet been crushed so low as to suffer insult, oppression, opprobium, and all manner of burden, without a murmur.—They have borne much, and borne so quietly as to astonish many that they made no more resistance, but they will not bear every thing silently. Remove the causes and peace and quiet will be restored; continue the causes and the country will indeed be ruined, and that by those who, not only would rule *or* ruin, but who would rule *and* ruin.

Well may the *Standard* say the PEOPLE will *demand* an answer to the interrogatory "how long is the prosperity and happiness of the people to be sacrificed to the bitterness of the politicians?" They will make the demand, and those who have brought this state of affairs upon them may "stand from under."

PUBLIC LAWS.

It is now nearly five months since the Legislature adjourned, and yet the Acts passed at the late session are not published according to law. To say that this delay is an outrage upon the public, does not sufficiently characterize this non action on the part of an important officer of the State; it is a crime for which severe and strict punishment ought to be imposed for the future, if none already exists. The "carpet-baggers" and Radicals upset our old system of laws completely, they have introduced strange and oppressive laws, and to add to this injury, they won't let the people know what they are, except as suits their own convenience, aims and ends.

The statute laws,—indeed, all the laws of the State, are in a wretched state of uncertainty, and it is a matter of moment to know especially what the statutes are. No one knows what they are; even the Judges and lawyers, the most active and accurate, can't tell what statutes have been passed. We heard a learned lawyer, the other day, speaking of the evil and outrage to which we now refer, say that there was not a Judge or lawyer in the State who knew, with tolerable certainty, the changes made by the Legislature at its late session. The Courts, lawyers, people and all, are stumbling in the dark. All this, because a "carpet-bag" State Printer, appointed by Gov. Holden, under an act of the Legislature, passed in a surreptitious way, won't, or can't do his duty. The Governor knows that Gen. Littlefield had the act passed, and for his benefit. A month was ample time in which to print and prepare the acts; it could have been done within that time. If the State Printer could not do the work, he could have gotten Messrs. Nichols & Gorman to do the work promptly and in good style.

Is there no way to compel Gen. Littlefield to do his duty in this behalf? How long is this State to be cursed and ruined by this man, and men like him? Perhaps even the present Legislature may yet come out of his pocket and ship him to Buzzard Bay or up North somewhere.

NOT TO LEAVE.—Within the past twenty four hours we have been offered two hundred and fifty thousand dollars in cash for The New York *Daily Democrat* office and paper, with the proviso that we can take our weekly paper to La Crosse or elsewhere, but are not to publish it within five hundred miles of the city of New York.

Excuse us, Messrs. Coupon Cutters—that is too much to ask for a paper that is failing! You see we came here last year to do a little job, and propose to stay. The sea air—the "marrytime" food—the beautiful drives of Central Park—the beauties of dress, such as laces, diamonds, Grecian bends, waterfalls, etc., etc., worn by bondholders' wives, rather please us, and we'd rather remain!—*N. Y. Democrat.*

It is said that the Khedive of Egypt before leaving Paris gave an order at one of the principal toymakers for a doll which is to exceed in its dress and ornament any recently heard of. It is intended as a present for one of the daughters of the Sultan, and some idea of the style in which it is got up may be given by stating that in the ears are diamonds worth $10,400.

A new French dictionary defines virtue as "a woman who has only one lover and don't steal."

MORE ROTTEN BOROUGH STATES.

The Radical leaders can beat any lot in turning and doubling to escape the enmity which is hot upon their trail and threatens to overtake and destroy them. One of the latest devices is to repeat the trick in the case of West Virginia—that is, carve new States out of old ones. This is proposed in the cases respectively of Arkansas and Tennessee, with the purpose, of course of obtaining four brand new Radical Senators, and so off-setting any possible Democratic Senatorial gains in existing States. As is perfectly well understood by these leaders, the Senate of the United States is really the government of the United States, and so long as Radicalism has a two-thirds in that body it can laugh at any testimony of popular disapprobation as evidenced in the composition of the lower House. West Virginia, as the reader will remember, has been made to do yeoman service, nullifying on several occasions, in the person of its two surreptitious Senators, the rebuke of much larger States as expressed by returning Democratic representatives to the House. Impeachment itself, by the aid of West Virginia, would have been successful had it not happened, contrary to every expectation, that the Senatorial vote of that made to order State was divided in the final vote. With Willey voting guilty and Van Winkle not guilty, the vote stood 35 for to 19 against conviction; from which it is easy to see that, had the West Virginia vote been wholly reliable, A. J. would have gone under by 36 to 18. To be sure, it was not "reliable," and he did not go under; but the very fact that impeachment, with all its probable consequences, was only averted by so unexpected a circumstance as the division of this bogus vote, gives one a very lively idea of the tremendous importance in any given contingency in Federal legislation possessed by any one State, real or putative.

To instance still further the importance of the Senatorial vote, let us suppose a matter of conflicting interest between the States of Vermont and New York comes up in the House of Representatives. The thirty-one New York members would, of course, vote one way and the three members from Vermont the other, leaving Vermont outvoted ten to one; and yet in the Senate, the Senators voting each for his State, Vermont would nullify New. York, and New York's ten to one superiority in the House go, so far as regards Federal legislation, for naught. The chain being no stronger than its weakest link, it follows that under our system the States are all of the same power; for, however one State may out vote another in the House, that vote goes for nothing until acted on by the Senate vote, where any one State has as many votes as any other State.

Knowing this, it is the subtle design of the Radical leaders to neutralize any revulsion of sentiment which might change the complexion of the House by reinforcing their side of the question in the Senate.—With the creation of new Radical Senators, who cares for the House? Let the people, poor gul's, elect a Democratic majority at the next Congressional election; this House is our—by its aid let us erect new States, fill up the Senate with six-year reliable voters, and then let the people and the House together go hang. A pleasant little game, is it not, thus to use and abuse the crown and flower of State Rights—the equal vote in the Senate—while bawling on all occasions that State Rights strikes at the great heart of the nation, and is a device of the old enemy himself.—*N. Y. World.*

A NUGGET OF GOLD WORTH TWENTY THOUSAND DOLLARS AND WEIGHING ONE HUNDRED AND SIX POUNDS.

A nugget of gold was received yesterday morning by A. T. Farrish & Co., weighing 106 pounds, being almost if not quite the largest ever taken out in this State, and within a few pounds of any ever found in modern gold digging. Its value is about $25,000. In the same find 367 65-100 ounces were secured in smaller quantities, from 20 to 25 ounces each, and also one cake of fine gold, retorted, weighing about 1,180½ ounces, all of which are now in the possession of Mr. Farrish. This extraordinary pile, $52,000, was obtained in one day by two men, from the Monumental Quartz Mine in Sierra Buttes, Sierra county, owned by W. A. Farrish and others. William Farrish writes that in two days he would send as much more. The vein varies from one to three feet, and is filled with decomposed quartz. The gold is obtained by sluicing, using quick silver to catch the fine particles. The tailings only go through an arastra. The Sierra Buttes and the Independence mine are located on the same mountain. It is only two months since Messrs. Farrish commenced work on this mine, and they have got in a few feet. A week ago they sent down $3,000 as the result of two men's labor for eight or nine weeks.

A RUFFIAN.—The reckless or devil-may-care character of a burglar and cut-throat, named Holbrook, recently captured in Chicago is well illustrated in the following: One night he was in a saloon kept by another desperado, and had a quarrel with the proprietor. The latter flew into a violent rage, drew a revolver, and pointing it at Holbrook told him that he'd put a bullet through him. Holbrook looked at the weapon and said disdainly, "That's a pretty pop. Why, I'll let you shoot at me as long as you like for a dollar a shot." The other desperado, half intoxicated, took him at his word, and gave his first dollar. Holbrook stood a few feet distant, with his hands by his sides, and gave the word to fire. The weapon was leveled point blank at his head and discharged. The ball grazed his right ear and lodged in the wall behind. A second dollar was paid and a second shot fired with a like result. Holbrook scarcely wincing. So he would have stood until killed, but for the interference of his companions. Laughing at the other's poor skill as a marksman, he called for the drinks, paid for them with the blood-money, and then quietly left the saloon, probably on some sale blowing errand.

A SAD AFFAIR.—We are informed that the house and two children of John Hargrove, colored, were burned in Providence Township, on Friday evening.

The parents of the children were both absent, the father off at work and the mother at a neighbors on a visit. The father discovered the fire but could not reach his house in time to save it, or his children, from the sad fate above mentioned. The children, a boy and a girl, aged respectively about 4 and 2 years, were very probably shut up in the house by their mother, and they no doubt kindled the fire which destroyed them. Another warning is here given to parents against leaving their homes and small children alone.—*Salisbury Examiner.*

Samuel Scott, of Dayton, Ohio, has been selected as the temperance candidate for Governor of Ohio, in place of J. E. Ingersoll, declined. In accepting the nomination he says that for the last twenty years he has advocated the principles of prohibition, and that he believes the time has "fully come" when temperance men should vindicate this doctrine at the ballot box.

GENERAL NEWS.

A new paper called the *Daily Tribune* has been started in Boston. It is devoted to Prohibition.

About twenty five persons were, at a late date, confined in a military prison at Sulphur Springs, Texas.

The Savannah News says that one firm in that city has contracted for two thousand Chinese laborers.

A Democratic paper, in Ohio, concludes its leader on the new nomination, with a "Hurrah for Pendleton!" and the following original lines:

"We drop 'Old Rosey,' therefore
Without a why or wherefore,
Or continental care for."

A walnut tree, eight feet across, petrified into soap stone, was lately discovered 175 feet deep in an Illinois coal mine.

A Cincinnati belle, heir to $75,000, is so annoyed with interested suitors that she has retired to another city and assumed an humble position in a respectable private family, determined to win a husband, if at all, upon her own merit.

The ingenuity of mechanical invention has come to the relief of buttonless bachelors, and a clamp has been contrived, adapted to all sorts of buttons, by which they are put on instantaneously and so firmly and neatly that they defy time and strain to wear them out. The fastening and the boxes containing clamp, tongue and disk, are to be had at three half pence per dozen.

THE VOTE IN KENTUCKY.—The official vote of Kentucky at the August election, as declared from the office of Secretary of State, is as follows: For State Treasurer, James W. Tate, democrat, 82,617; E. Rumsey Wing, republican, 54,759; (for the school tax, 78,208; against it 54,275.

A most ingenious piece or mechanism has been completed and patented by Mr. B. W. Ogburn, of Mecklenburg, Va. It is a scale which, in weighing seventeen and a half pounds of sugar, at sixteen cents a pound, points out what the sugar comes to. So of any article or any number of pounds or any price.

The Rome (Ga.) Courier of Wednesday says: "Mr. Samuel Andrews and his family—wife and five children, all except his youngest daughter—and John Beasly with his wife and three children, of this county, have joined the Mormons, and will leave for Salt Lake about the 15th of September.

The solicitors of Lady Byron's family have written a communication to the London journals, distinctly stating that the article of Mrs. Stowe in the *Atlantic Monthly* on the reason of the separation of Lord and Lady Byron is not a complete or authentic statement, and does not involve any direct evidence. Nothing is communicated but recollections of a conversation had thirteen years since and impressions derived from a manuscript read under great excitement.—Without conceding that Mrs. Stowe's narrative contains a complete account of the relations between Lord and Lady Byron, they protest against it as a gross breach of trust and confidence; as inconsistent with Mrs. Stowe's recommendations to Lady Byron, and a violation of the express terms of her will. Lady Byron's representatives and descendants absolutely disclaim all continuance of the article, which was published without their privity or consent.

HOW TO GET A CLERK'S SALARY INCREASED.—A clerk in one of the departments secured a promotion a few days since by a little trick which has probably not before been attempted. He had been in office for a couple of years, and failing to secure the coveted advance of salary owing to the refusal of the chief clerk to recommend his promotion, two or three months since he engaged a room and board with the aforesaid chief. At the end of the month only a part of the bill was paid, and the result was the same at the end of the next month. An explanation was had, whereupon the clerk stated that his salary was too small, and until it was increased he saw no prospect of being able to liquidate his indebtedness. It was suddenly discovered that his services were more valuable to the government than had been supposed, and a promotion has followed the discovery.—*Wash. Chronicle.*

CONFEDERATES STILL IN YANKEE PRISONS.—The Sumter Watchman states that a lame man passed through that town a few days ago, calling himself a Confederate soldier, and stated that he had been released from prison at Johnson's Island in December, 1868. He says that when he left that place there were eighty-six Confederate soldiers at that place who had not been home or heard from their friends since the war. Five of those were from South Carolina, and he gave their names as follows: Major Mobley, of Fairfield, about 32 years of age, fair complexion, 5 feet 8 inches or 6 feet high; Lieut. Simmons, of Fairfield; Capt. Zeigler and Lieut. Easterling, of Orangeburg, and Lieut. R. W. Boyd, of York. He begged that these names should be published, that their friends might learn of their whereabouts and that they were alive.

Mr. Avery said he had a case in court the other day in Memphis. A little fellow was introduced as a witness. The counsel on the other side desired that the witness should be interrogated touching his knowledge of the responsibility of an oath. The Judge (Radical) propounded the usual questions:

"My little man, what are you about to do?"

"Be sworn as a witness in the case."

"Are you acquainted with the nature, obligations and reponsibilities of an oath?"

"Yes sir," I think I am."

"Well then, what do you think would be done with you if you were to swear to a lie?"

"I don't know, sir, without the Radicals would nominate me for Congress."

ON DIT.—We heard, on the street Saturday, that it was probable that Gen. D. H. Hill will shortly re-open the Military Institute. We trust that the rumor may turn out as verity.—*Charlotte Times.*

AFFAMOUS CASES OF SHANGHAIING.

About four months ago a man named Charles Cahill disappeared mysteriously, leaving a family in great distress of mind on account of his loss, and in a destitute condition pecuniarily. He had been engaged in running a small engine for unloading vessels, as it was thought possible that he had fallen overboard at the wharf and was drowned. A cannon was fired over the spot and the bay at that point was dragged, but the body was not found, and nothing was learned on the subject until a few days ago. Some suspicion was entertained that Cahill had been shanghaied, and Chief Crowley telegraphed to several ports on the coast to place authorities on the alert, and if possible to secure the release of the missing man if carried off by some vessel against his will. A few days ago the missing man returned to the city. Cahill states that he was walking along Davis street on one Saturday afternoon, after he had finished his day's work, when he met two sailor boarding house runners, with whom he was well acquainted. After visiting several saloons, and drinking two or three times, he became unconscious, and only came to his senses again to find himself at sea, on board the ship Garibaldi, in the capacity of a sailor. When the ship reached Callio the U. S. Consul, who had received the letter from Crowley, instituted measures to secure the discharge of the man thus unlawfully held, when the captain sent him ashore without giving him a dollar for his services. A free passage home was procured for him through the efforts of the Consul. The case was placed in the hands of Detectives Ellis and Sellenger, who arrested James Brown on Saturday, and officer Coulter arrested Charles Wilson yesterday, both of whom were accused by Cahill as the guilty parties.

Within a few months past a man was locked up in a room and brutally beaten in daylight, by two of this class of scoundrels, because he would not ship. He succeeded in breaking a window, and attracting the attention of a crowd of people. Officers broke open the door and found the guilty scoundrels in the room themselves, covered with the blood of their victim. A short time before this occurrence, a man was half drowned in the bay by two boatmen who had taken him to a vessel to ship, but who had been frustrated in their plans. Still later a German saved himself from the clutches of two or three of these villans by jumping overboard from their boat near the end of the wharf. He was nearly drowned but was finally saved by the interposition of an officer. Quite recently another victim saved himself by jumping from a boat and swimming ashore in the evening. He soon afterwards made his appearance dripping wet and shivering from cold at the station house, and at several of the newspaper offices, where he told his story. In another instance, a man who had been shanghaied made some exertion to get ashore or send information of his condition, when he was tied up and most barbarously treated on the vessel. Two or three of the officers who had abused him on the vessel were arrested, but were at once released, and sailed that evening with their victims still on board, and subject to their continued hostility.

THE KLUX OF MISSISSIPPI.—Gen. Adelbert Ames, the dictator, now commanding the white slaves of Mississippi, is a native of Maine. He was graduated at the West Point Military Academy, May 6, 1861, at which date he was appointed Second Lieutenant in the Second Artillery. He was promoted Lieutenant Colonel in the 24th Infantry, July 28, 1864. He was brevetted Major General, March 13, 1865. He is now only about 28 years of age, and this *mere boy* is allowed to dominate over the people of a great State, and defy the regularly instituted courts of the United States, with no one, not even the President of the United States to prevent!

GLASS SPECTACLES,

Superior to any other in use—constructed in accordance with the science and philosophy of nature, in the peculiar form of

A CONCAVE CONVEX ELLIPSIS,

Admirably adapted to the organs of sight, and perfectly natural to the eye, affording altogether the best artificial help to the human vision ever invented. Used only by

MORRIS BERNHARDT,

SPECTACLE & OPTICAL MANUFACTURER

THE ADVANTAGES of these Spectacles over all others are:

1. **They can be worn with perfect ease** for any length of time at one sitting, giving astonishing clearness of vision, by candle or any other artificial light, comfort to the spectacle-wearer hitherto unknown.

2. **How to select Glasses.** It requires professional guidance even when a good article is offered. Dr. Bernhardt not only has the best Glasses that can be found in the market, but carefully examines the eyes of his patients, and gives indispensable advice as to the proper selection of them.

3. **When the eyes ache or pain through** the action of a bright light, such as is reflected from the snow, sunny weather, white paper, and in reading, writing or sewing, or vivid colored bodies; these lenses, by softening the rays effect a most agreeable sensation and give great relief.

4. **These spectacles are scientifically** adjusted to every case of defective sight with unerring accuracy, whether arising from age, strain over work, or premature decay, by Dr Bernhardt on a new and exact principle, entirely his own, which has seldom failed to be correct.

5. **After several years of public practice** adjusting spectacles to patients under every aspect of defective vision, as well as experience in an extensive, long established business in his Optical Stores, both here and in Europe, Dr. Bernhardt considers it a sufficient guarantee of his ability to supply such glasses as are best calculated for the assistance of imperfect sight.

6. **M. Bernhardt, to signalize himself** from the host of pretenders in his profession, with pride submits for inspection, copies of testimonials he has received from medical gentlemen of the most unquestionable respectability and talent in America; also a number of certificates from well known gentlemen of distinction who have used his spectacles—the originals of all which he will be happy to show to those who may request it. The use of any of the following names or certificates hereunto affixed, without an actual possession of the same, would be a forgery, a capital offence, punishable by State imprisonment.

Testimony of Recommendations from Medical Gentlemen, Professors of the highest Ophthalmic talent in Raleigh, N. C, and in the Union.

Raleigh, Aug 24, 1869.

I have carefully examined Prof. Bernhardt's spectacles, and take great pleasure in recommending him to those who, having defective vision, can be made to see more clearly and distinctly by the use of glasses. He has wonderful skill in this respect. The pair he has supplied me with are of Brazilian Pebble, of most superior quality and excellent finish. They enable me to see how to read or write, at the ordinary focal distance, as clearly and distinctly as I did twenty years ago. I very cheerfully bear testimony both to the Professor's skill and to the wonderful properties of his glasses.

CHAS. E. JOHNSON, M. D.

Raleigh, N. C., Aug. 24, 1869.

I take great pleasure in saying that the Glasses I have obtained (and am now using) from Dr. M. Bernhart are to me a source of greater comfort than any I have previously used; my own experience fully sustaining the testimonials of excellence and commendation which he has received from gentlemen of science, and high character in various parts of our country.

WM. G. HILL, M. D.

Raleigh, N. C., Aug 24, 1869.

I take pleasure in stating that I have examined the glasses of M. Bernhardt, Oculist and Optician, and think they are of the best material, and constructed on scientific principles. I would advise those in need of glasses to call on him.

Very respectfully,
F. J. HAYWOOD, M. D.

Raleigh, Aug. 24, 1869.

Doctor Bernhardt called at my house and exhibited to me his fine assortment of Australian Crystal Glasses, which are of a very superior quality and workmanship. I take pleasure in saying that the glasses I have obtained from Professor Bernhardt are to me a source of greater comfort than any I have previously worn and cheerfully commend them to those who may be in need of glasses.

W. H. McKEE, M. D.

Raleigh, Aug 25, 1869.

After an attentive examination of the various glasses in the possession of Dr. M. Bernhardt, accompanied with his explanation of his mode of preparing and adjusting them, it is with great pleasure I state my belief of his great skill, and of the benefit which those needing glasses must derive from his assistance.

R. S. MASON, D. D., Pastor Prot. Episcopal Church.

Raleigh, Aug 25, 1869.

Dr. M. Bernhardt, Oculist and Optician, has fitted me with a pair of Spectacles superior to any article of the kind I ever had before. The material is Australian Crystal, the quality of which renders vision very clear and distinct, and enables me to read and write with as much ease as I did ten or twelve years ago. His assortment of glasses is most complete and the finish apparently perfect. I take great pleasure in recommending him to all who need their sight improved.

DAURY LACY, D. D., Late Prof't. of Davidson College, N. C.

Raleigh, Aug. 26, 1869.

It gives me pleasure to bear witness to the extraordinary value and excellence of the glasses prepared and furnished by Prof. Bernhardt. To those who need artificial aid for their vision he will be of the highest service.

J. M. ATKINSON, Pastor of the Presbyterian Church.

State of North Carolina, EXECUTIVE DEPARTMENT, Raleigh, March 28, 1868.

I have examined a large number of the glasses of Prof. M. Bernhardt, and with pleasure certify to their superior excellence. I wear a pair of them and see as perfectly as I could in my youth. They are the best I ever used, and I therefore heartily recommend him to the patronage of the public.

JONATHAN WORTH, Governor of North Carolina.

State of South Carolina, EXECUTIVE DEPARTMENT, Columbia, June 19th, 1868.

Sir: I have made a full and satisfactory test of the Spectacles procured from you, and I have the pleasure to say that the glasses are better adapted to my eyes than any I have ever used. The facility with which you fitted the glasses to my eyes, furnished me conclusive evidence of your scientific skill in optics and your thorough experience as an Oculist.

Your attainments in your profession entitle you to the confidence, patronage and gratitude of the public. I have the honor to be,

Very respectfully yours, JAMES L. ORR, Governor of South Carolina.

Prof. MORRIS BERNHARDT, Charleston, S. C.

Wilmington, March 31, 1866.

I have examined a number of Professor Bernhardt's Glasses and am now using a pair of them, and take pleasure in testifying that they enable me to see better than any others that I have used, while in his collection there seem to be some adapted to remedy any kind of defect in vision.

THOMAS ATKINSON, Bishop of North Carolina.

Nashville, April 27, 1867.

The difference between Dr. Bernhardt and most Opticians is, according to my observation, that while they pretend to more than they know, he knows more of his business than he professes.

A GUIDE FOR JUSTICES OF THE PEACE AND OTHER COUNTY OFFICIALS,

REVISED, ENLARGED AND IMPROVED!

THE SECOND EDITION of this work, greatly enlarged and improved, will be ready for delivery to subscribers on the 10th of September. It has been delayed thus long, in order to add to its usefulness, by publishing

ALL THE ACTS OF THE LAST SESSION OF THE GENERAL ASSEMBLY,

relating in any manner to County Officers, or County Police.

The Publishers have spared no expense in getting up this edition; the text and the forms being carefully prepared and arranged by a member of the Raleigh Bar, of acknowledged ability, and great experience in preparing legal forms and solidifying laws.

The edition contains over THREE HUNDRED LARGE-SIZED PAGES of closely printed matter, on good paper, with a table of contents and a full and exhaustive index to the text, and over

Two Hundred and Fifty Forms,

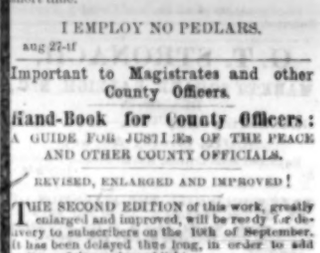
GULLETT'S COTTON GIN.



ON EXHIBITION AT MY STORE, A "GULLETT'S STEEL BRUSH GIN."

The Gin is of a very superior style of workmanship, gins more Cotton in a given time than any Gin of the same number of saws; picks the seed cleaner; leaves no motes or nap; does not waste the lint by throwing it over the walls of the room where it is being ginned; does not cut the lint, but brings it out in beautiful bats.

Planters desiring Gins would do well to buy one of Gullett's, as each one is guaranteed, and if it does not have the advantages, over other Gins, named in this advertisement, after fair trial, it will be no sale.

The "Gullett Gin" has been awarded the Premium at the several STATE FAIRS of Louisiana, Alabama and Mississippi.

I am Agent for its sale and would be pleased to fill orders.

THE SENTINEL.

CITY AND STATE ITEMS.

TUESDAY, SEPTEMBER 7, 1869.

☞ Theo. N. Ramsay, as Business Clerk, is authorized to make contracts and give receipts, &c., &c.

The weather at Raleigh, N. C., as indicated by the Thermometer at the office of the North Carolina Land Company, Tucker Hall, September 6th:

9 A. M., 74. 3 P. M., 79.
12 M., 80.

New Ads.—Turner's N. C. Almanac for 1870, Blank Books, Ledgers, best writing inks, and, in fact, everything to be found in a first class bookstore: J. H. Ennis.

J. M. Towles will sell on the 8th inst., at his Auction and Commission Ware House, 16 fine young Kentucky mules at reasonable terms. See what he says.

The Funeral To day.—In the absence of any general resolution on the subject, we respectfully suggest that the business houses of the city be closed to day, from 11 o'clock A. M., until 1, P. M., in token of respect to the memory of Gov. Worth; or at least, from the tolling of the bell at the Church until the funeral procession shall have passed from the Church to the Cemetery.

The Revival.—The revival meetings are still continued at the Baptist and Methodist churches of the city. At the Baptist Church, on Sunday night, four were received into the Church by Baptism, and the number of penitents was large.

At the Methodist Church on Sabbath morning, nine were received into membership, and the rite of Baptism administered to six subjects. The interest is unabated, and the meetings at both Churches will probably be continued through the week if not longer.

Local Change.—We learn that Mr. Stuart, late Local of the *Standard*, has retired from that position, and that his chair is to be filled, or rather occupied, by Dr. Westley Whitaker, long and often connected with newspaporial life in North Carolina. We anticipate no unpleasantness with West, especially, as we understand, he has nothing to do with the politics of the paper, but should he get to cutting up "didos" to any great extent, why, we'll let out about some of his old Norfolk and Baltimore antics, in the days of the "Live Giraffe."

Fair.—We understand that the Oak City Council, Friends of Temperance, will, during the time of the coming Agricultural Fair, hold, for two consecutive days, a Fair for the benefit of the Order.

The object of the Fair is to raise funds to furnish, in an appropriate manner, their new Hall, and to meet various other necessary expenses which the Society has recently incurred. We trust that the affair will be a complete success, and that encouragement will be extended to an association whose good works, in every community where it has an existence, has entitled it to the good wishes and hearty co-operation of every right-minded man.

Sabbath School Convention.—A Sabbath School Convention will be held at the Methodist Episcopal Church, South, commencing on Thursday, 16th inst., and continuing four or five days. Delegates to the Convention from other schools in the State will be passed over the N. C. Railroad both ways for one first class ticket; and doubtless other Roads in the State will extend the same courtesy.

All preachers will be considered delegates, independent of the lay delegation from their respective charges. All delegates, on arriving in the City, will report themselves at the Book store of Mr. J. A. Jones, on Fayetteville Street, just above Tucker's Store.

PROGRAMME.

The Convention will organize at 10 o'clock, A. M., on the 16th, at the Methodist Church.

On Thursday at 7½ o'clock, P. M., Dr. N. F. Reed, of Greensboro' District will deliver a discourse on the general interest of Sabbath Schools.

On Friday night, Rev. A. W. Mangum will deliver a lecture before the Convention.

Dr. B. Craven, of Trinity College, will address the Convention on Saturday evening at 7½ o'clock.

At 3 o'clock on Sunday, A. H. Merritt, Esq., will deliver an Address before the Sabbath Schools of the city, at the Methodist Church.

The exercises of the various hours of meeting of the Convention will be enlivened by singing, by the children of the Sabbath Schools.

Preaching for Sabbath will be announced in due time in the city papers.

Rain-Rain.—Yesterday we had fine showers, which although too late for the summer crops, will be fine for potatoes and turnips. They will be helps, also to the water-mills, many of which were running on half time and some entirely stopped for want of water.

New Year's Day.—The Jewish New Year commenced at sunset on Sunday, and was observed by our Israelitish citizens by the closing their places of business yesterday. The festival is called *Rosh Ha Shona*, and is usually observed two days. The the new year also commences the ten days of penitence, the last of which is called "Yom Kipur," or day of atonement.

Land Sales.—The N. C. Land Co. are selling lands to immigrants almost every day, in the eastern, middle and western parts of the State. Last week the Company effected a sale of several hundred acres in the vicinity of Raleigh, to two gentlemen, the Messrs. Perry, one from Rhode Island and one from Connecticut. This Company is doing much good for our State in this way and we wish it much success in its business.

Masonic.—A meeting of "Wm. G. Hill" Lodge, A. Y. M., will be held on this, (Tuesday) evening at 7½ o'clock, for work. The usual invitation is extended.

The Excursionists.—Yesterday morning was the time appointed for the colored Fire Company of this city, together with a large number of our col. citizens, to start on an excursion to Newbern and Morehead City. In due time some one or two hundred had assembled at the Depot, prepared for, and awaiting the coming of the train to take them on to Goldsboro. But, when the time for "all aboard" arrived, it seems a misunderstanding, or a misconception, or a miss of some other sort loomed up in the catalogue of the usual misfortunes that so often obtrude themselves upon our most joyfully anticipated pleasures, and which threatened to make the excursionists miss the pleasure for which so much preparation had been made.

What the misapprension was, we did not fully find out; but it produced a scene that might have afforded amusement to some, but was anything but amusing or pleasant to those immediately concerned. After getting on the train, they were ordered off; then told to get on again; then off, and this was repeated and re-repeated some half dozen times. In the meantime telegrams were passing backward and forward between the Conductor and the President.

Finally, about 11 o'clock, after the excursionists had been in a state of suspense for four hours, accompanied by many demonstrations of no very good humor, the train started, and those who had not been disgusted and returned home, went with it.

If "a bad beginning makes a good ending," they may anticipate a gay and a good time, which we most heartily wish them.

Destructive Fire in Goldsboro'.—We learn from an extra of the Goldsboro' *Messenger*, that a destructive fire occurred in that town on Saturday night last, by which the most beautiful and largest business part of the town was laid in ashes. Seventeen places of business, the Masonic Lodge, the Wayne Boarding House, the *Messenger* and *Post* Printing offices, and Weil's Lumber Yard were all consumed. The *Messenger* saved only a small lot of type and a job press, on which the publisher proposes to issue a small sheet until he can replace his large press and procure more type, which he hopes to do in about two weeks.

The losses are put down by the *Messenger* as follows: Messrs. Weil & Bros., loss $30,000; Wm. Robinson, $15,000; Einstein & Bros. $12,000; J. H. Privett, $10,000; Dr. J. M. Hunter, $3,000; W. W. Crawford, $3,000; Dr. W. H. Finlayson, $2,500; Mrs. M. A. Borden, $2,500; J. D. Waters, $2,500. Jno. H. Powell, $1,500; Rufus Edmundson, $1,800; J. H. Wiggs, $1,500; L. D. Giddings, $2,000; J. W. Gulick, $1,500; R. J. Gregory, $1,500; J. W. Morris, $1,500; J. A. Bonitz, $1,100; Dr. W. T. Robinson, $800; W. F. Kornegay, $700; and Mrs. M. A. Tompkins, $600.

The aggregate loss is estimated at about $125,000, of which only about $18,000 or $20,000 was insured.

The fire originated in a warehouse attached to the rear end of Col. J. W. Morris's Bowling alley, and as no fire has been in that portion of the building since spring last, it is strongly suspected to have been the work of an incendiary.

The *Messenger* thinks that several thousand dollars worth of property was stolen during the progress of the fire.

Lenoir County Prisoners—Examination on Saturday, *Sept. 4th.*—The case of Richard Sutton was called. Counsel for the defence stated they had no evidence to bring before this Court, as their evidence was of an impeaching character.

Jesse C. Kennedy, under the same evidence adduced against the prisoners on Friday, was held in a bond of $10,000 to answer at the next term of Lenoir Superior Court, and $25,000 to keep the peace towards witnesses, &c.

The examination of A. Monroe for conspiracy was postponed, on account of the absence of a witness that had mysteriously disappeared. His examination, on a charge of murder, was then entered into.

Jno. T. Freeman, former Sheriff of Lenoir, testified to the prisoners being taken from Lenoir jail, and to seeing Mr. Monroe there at the time, but that he left before the cell was entered, without saying anything.

William Hopp gave evidence varying somewhat from the last witness on the same points.

Three other witnesses, Wm. White and G. W. Tillon, whites, and Tom Parker, colored, were examined, but neither of them saw the jail broken open nor the prisoners taken out—had seen bodies in the river, sometime after. There was no cross examination of any of the witnesses.

After ineffectual efforts to continue the trial for absence witnesses, and for bail, Judge Thomas remanded the prisoner to jail to await trial.

On motion of Counsel the Judge took into consideration the reduction of the amount of bail required of Mr. J. C. Kennedy.

Richard Sutton charged with the murder of Cogdell, on the evidence of witnesses previously examined, remanded for trial.

The examination here closed, the witnesses were recognized and the Court adjourned.

During the progress of this examination, we have carefully refrained from conversing on the subject of this affair, and from reading anything in the papers concerning it, but noting the evidence taken in the examination, from day to day, carefully, in order to try to make up an unbiased opinion concerning the case. Now that it is through, we are candidly of the opinion that there is not a tythe of truth in the representations at first made, and we have no doubt when the defense shall bring in its testimony, this fact will be more clearly shown still. But we cannot now enter into the reasons that brought us to this conclusion, but no doubt they have presented themselves to the minds of those who have read the evidence.

The Resolutions in regard to the repeal of our Sunday liquor law, passed by "Oak City Council," Friends of Temperance shall appear to-morrow; they were handed in too late for the present issue.

BOOK NOTICES.

The Man Who Laughs; or, By the King's Command: By Victor Hugo. Complete in two Parts: Paper, Octavo, Part 1st, 50 cents; Part 2nd, 75 cents.

This book is great and heroic, tender and strong; full from end to end of divine love, of holy and ardent pity for men that suffer wrong at the hands of men; full, not less, of lyric loveliness and lyric force.

Mademoiselle Fifty Millions; or, The Adventures of Hortense Mancini. By the Countess Dash. Translated by Adelaide De V. Chandron. One vol., 8 vo. Paper. Price 60 cts.

"Mademoiselle Fifty Millions" is an historical novel of the period of Louis XIV. of France, and turns upon incidents connected with the nieces of Cardinal Mazarin whom he introduced into the French Court from Italy. Hortense Mancini, the heroine of the story, was one of the Cardinal's nieces, and, inheriting the greater part of his huge fortune, became known as "Mademoiselle Fifty Millions." Her adventures are among the most romantic episodes in history; nothing in recent literature is so dramatic, vivid, and intensely interesting as this story of her life.

Byron's Works: Comp'ete in one volume, octavo, including all his suppressed and attributed poems; with six beautiful engravings. Price $3.50.

This is a new edition of Byron, and made complete by the addition of more than fifty pages of poems heretofore unpublished in England; among these are a number that have never appeared in any American edition, which makes this the most complete edition ever published in the United States.

All of the above works can be had at the N. C. Book store, Jas. H. Ennis, Agent, Raleigh, N. C.

Magistrates' Jurisdiction.—As many of the newly elected Magistrates of the State may labor under misapprehension in regard to the extent of their powers in many cases, we publish the following note from Gen. Cox which will give them the necessary information in regard to *one* point in the administrations of their functions.—When the laws are published, if they ever should be, officers will have a better chance of learning their duties generally:

Raleigh, Sept. 4, 1869.

Editor of the Sentinel:

Dear Sir:—As there is a general misapprehension in this District, and perhaps in others, please state in your paper that in *all* cases of larceny, Magistrates have simply the power to discharge or bind over to the Superior Court the accused, but in no case final jurisdiction.

Vide McLaurin *ex parte*, State vs. Jarvis.—*N. C. Reports.*

DIVIDENDS DECLARED AND PAID ANNUALLY ON THE CONTRIBUTION PLAN.

ALL POLICIES (AFTER TWO FULL PAYMENTS) NON-FORFEITABLE, AND SO EXPRESSED ON EACH POLICY.

No Restrictions as to Residence and Travel in the United States.

RATES LOWER THAN ANY OTHER COMPANY THAT PAYS DIVIDENDS TO POLICY-HOLDERS.

IT ISSUES ALL THE VARIOUS FORMS OF LIFE AND ENDOWMENT POLICIES.

LOSSES PAID PROMPTLY IN CASH.

LIST OF LOSSES ACTUALLY PAID BY THE ÆTNA LIFE INS. CO., AT THE BRANCH OFFICE, IN RALEIGH, BY THE HANDS OF W. H. CROW, GENERAL MANAGER OF THE STATE AND PART OF VA.

And $5,000 ready to pay a loss of No. 34,161, so soon as the party authorized to receive the money appears.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

Knickerbocker,	$16,54
Equitable,	17,44
North America,	21,16
Brooklyn,	21,09
Universal,	27,34
John Hancock,	18,27
The National,	63,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, except one. It insured more Policies in the United States than any other save one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago, in 1861, it issued only 508 policies, insured an income of seventy-eight thousand dollars, and possessed assets amounting to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,337 new policies, more than any other Company, except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, surely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."

STANZAS.

Leaf by leaf the roses fall,
Drop by drop the spring run dry;
One by one beyond recall,
Summer beauties fade and die;
But the roses bloom again,
And the spring will gush anew,
In the pleasant April rain
And the Summer sun and dew.

So, in the hours of deepest gloom
When the springs of gladness fail,
And the roses in the bloom
Drop like maidens wan and pale,
We shall find some hope that lies
Like a sheet gem apart
Hidden far from careless eyes
In the garden of the heart

Some sweet hope of gladness will,
That will spring afresh and new,
When grief's winter shall have fled,
Giving place to rain and dew—
Some sweet hope that breathes of Spring,
Through the weary, weary time,
Bedding forth its blossoming,
In the spirits of the glorious smile.

HOW SMITH ASKED THE OLD MAN.

Smith had just asked Mr. Thompson's daughter if she would give him a lift out of bacheriordom, and she had said "Yes."

It therefore became absolutely necessary to get the old gentleman's permission, so, as Smith said, the arrangements might be made to hop the conjugal twig.

Smith said he'd rather pop the interrogatory to all of old Thompson's daughters, and sisters, and his lady cousins, and his aunt Hannah, in the country, and the whole of his female relations, than ask old Thompson. But it had to be done, and so he sat down and studied out a speech which he was to disgorge at old Thompson the very first time he got a shy at him. So Smith dropped in on him one Sunday evening, when all the family had meandered around to meeting, and found him doing a sum in Leer measure.

"How are you Smith?" said Thompson, as the former walked in, white as a piece of chalk and trembling as if he had swallowed a condemned earthquake. Smith was afraid to answer, 'cause he wan't sure about that speech. He knew he had to keep his grip on it while he had it there, or it would slip from him quicker than an oiled eel through an auger hole. So he blurted out—

"Mr. Thompson, sir: Perhaps it may not be unknown to you, that during an extended period of some five years, I have been busily engaged in the prosecution of a commercial enterprise—"

"Is that so, and keepin' it a secret all this time, while I thought you were tendin' store? Well, by George, you're one of them ain't you?"

Smith had begun to think it all over again, to get the run of it.

"Mr. Thompson, sir: Perhaps it may not be unknown to you that during the extended period of five years, I have been busily engaged in the prosecution of a commercial enterprise with the determination to secure a sufficient maintenance—"

"Sit down, Smith, and help yourself to beer. Don't stand there holdin' your hat, like a blind beggar with paralysis. I never have seen you behave yourself so queer in all my born days."

Smith had been knocked out again, and so he had to wander back and take a fresh start.

"Mr. Thompson, sir: It may not be unknown to you, that during an extended period of five years, I have been engaged in the prosecution of a commercial enterprise, with the determination to procure a sufficient maintenance—"

"A what's asse?" asked old Thompson; but Smith held on to the last word as if it was his only chance, and went on:

"in the hope that some day I might enter wedlock, and bestow my possession upon one whom I could call my own. I have been a lonely man, sir, and have felt that it is not good for man to be alone; therefore I would—"

"Neither is it, Smith; I'm glad you dropped in. How's the old man?"

"Mr. Thompson, sir," said Smith, in despairing confusion, raising his voice to a yell, "it may not be unknown to you that, during an extended period of a lonely man, I have been engaged to enter wedlock, and bestow all my enterprise on one whom I could determine to be good for certain possession—no, I mean—that is—that—Mr Thompson, sir; it may not be unknown—"

"And then again it may. Look here, Smith; you'd better lay down, and take something warm—you ain't well."

Smith, sweating like a four year old colt, went in again.

"Mr. Thompson, sir: It may not be lonely for you to prosecute me whom you a friend, for a commercial maintenance, but—but—ch—ding it—Mr. Thompson, sir; 'It—"

"Oh, Smith, you talk like a fool. I never seen such a first-class idiot in the course of my whole life. What's the matter with you, at last?"

"Mr. Thompson, sir," said Smith, in an agony of bewilderment, "it may not be known that you prosecuted a lonely man who is not good for a commercial period of wedlock for some five years, but—"

"See here, Mr. Smith, your'e drunk, and, if you can't behave yourself better than that, you'd better leave; if you don't, I'll chuck you out, or I'm a Dutchman."

"Mr. Thompson, sir," said Smith, frantic with despair, "it may not be unknown to you that my earthly possessions are engaged to enter wedlock five years with a sufficiently lonely man, who is not good for a commercial maintenance—"

"The very deuce he isn't. Now you just git up and git, or I'll knock what little brains ont of you you've got left."

With that, old Thompson took Smith and shot him into the street as it he'd run him against a locomotive, going out at the rate of forty miles an hour. Before old Thompson had time to shut the front door, Smith collected his legs and one thing and another that were lying around on the pavement, arranged himself in a vertical position and yelled out:

"Mr. Thompson, sir: It may not be known to you"—which made the old man so wretched mad that he went out and set a bull terrier on Smith before he had a chance to lift a brogan, and there was a scientific dog fight, with odds in favor of the dog, for he had an awful hold for such a small animal.

Smith afterwards married the girl and lived happily about two months. At the end of that time he told a confidential friend that he would willingly take more trouble and undergo a million more dog bites to get rid of her.

Koskoo!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of the Country

AS A GREAT AND GOOD MEDICINE,

has induced Dr. Lawrence to ENLARGE HIS LABORATORY and FACILITIES for MANUFACTURING, so as to be enabled to supply the extraordinary demand for it.

THE LARGE NUMBER OF TESTIMONIALS which are constantly being received from Physicians, and persons WHO HAVE BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

As a BLOOD PURIFIER, it HAS NO EQUAL.

BEING POSITIVELY THE

Most Powerful Vegetable Alterative YET DISCOVERED!

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth. To say nothing of those humors that are hereditary, we can easily see how the Blood may become bad from imperfect Digestion or failure of excretion and how this may influence the process of Nutrition, and thus influence all the functional activities of the body.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues lose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in roughness of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are afflicted with scrofula in some form.

Persons suffering from any bad humor are very liable to have it settle on the Lungs or some other vital organ. The only safe rule is to remove the Blood poison at once, before it settles itself upon some vital point.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

KOSKOO!

AS A

LIVER INVIGORATOR!

STANDS UNRIVALLED.

BEING THE ONLY KNOWN MEDICINE that EFFICIENTLY stimulates and CORRECTS the hepatic secretions and functional DERANGEMENTS of the LIVER, without debilitating the system. While it acts FREELY upon the Liver instead of COPIOUS PURGING, it gradually changes the discharges to a PERFECTLY NATURAL STATE.

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the sides, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, &c.

KOSKOO!

Is a remedy of WONDERFUL EFFICACY in the cure of diseases of the KIDNEYS and BLADDER. In these affections it is as near A SPECIFIC as ANY remedy can be. It does its work KINDLY, SILENTLY, and SURELY. The RELIEF which it affords is both CERTAIN and PERCEPTIBLE.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys cannot estimate the IMPORTANCE of their healthy action.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the bladder originate from those of the Kidneys, the urine being imperfectly secreted in kidneys, proves irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys except through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

MEETS WITH GREAT SUCCESS IN THE CURE OF

Diseases of the Nervous System.

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work, [mental and physical] are causing diseases of the nervous system to increase at a fearful ratio.

The symptoms to which diseases of the nervous system give rise, may be stated as follows. A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in answering questions; Dullness of Hearing; Twitching of the Face and Arms, &c., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, &c., &c.

CONCLUSION.

Suffering reader, do not think that because you have tried other remedies, you cannot be cured, but recollect that God, in His Providence, has not afflicted His children with pain and disease, without at the same time giving them something in the Great Garden of Nature that will cure them.

Have no hesitation in writing to me, and stating your case in full, and I will answer you promptly.
